

Skilled and detail-oriented software developer with 5+ years of experience designing, developing, and deploying enterprise-level applications. Proficient in multiple programming languages, software development methodologies, and database management systems. Strong problem-solving skills and ability to work effectively in a team-based environment.

## SKILLS

- .NET Framework
- .NET Core
- ASP.NET MVC
- C#
- LINQ Query
- MS SQL
- Entity Framework
- JavaScript
- JQuery
- Git / TFS
- REST API Development
- React JS

## WORK EXPERIENCE

### E-VIS

*Senior Software Engineer (Contract) • Jan 2023 - Aug 2023*

- Led a team of software engineering interns undertaking the software development life cycle.
- Integrated Australia New South Wales government council portals.
- Developed services using Onion Architecture.

### Peercore / Cloud Permits

*Software Engineer / Associate Software Engineer • Jun 2018 - Jun 2023*

- Integrated enterprise content management systems such as S3, SharePoint, AltusECM, and HPTrim
- Conducted technically challenging feasibility analysis and R&D to add and customize features
- Liaised with product managers to identify minimum viable product requirements
- Deployed and integrated software engineered by the team and updated integration and deployment scripts to improve continuous integration practices
- Worked closely with the product support team to resolve production issues and client requirements
- Collaborated with the QA team to understand and fix injected bugs before production deployment
- Developed data migration programs to insert onboarding client data into projects, ensuring smooth transitions
- Technologies Used: **ASP.NET, .NET Core, Entity Framework, MS SQL, Javascript, jQuery, S3, REST API, Azure DevOps TFS**

### CREO360

*Software Engineer Intern • Jul 2016 - Jul 2017*

- Created software applications adhering to industry best practices, ensuring scalability and maintainability
- Developing front-end features using **HTML5, CSS, Bootstrap, and JS**
- Developing back-end features using **C#, ASP.Net, SQL Server, Stored Procedures**

## PROJECTS

### Orders Master • [ordersmaster.com](#)

ASP.Net Core | Entity Framework | REST API | AWS S3 | AWS SQS | MS SQL | Wordpress Integration

Orders Master is an order management software designed to streamline the entire sales process for businesses. It offers features such as automated order processing, inventory management, customer and lead tracking, courier integration, and advanced analytics.

### Rent All • [rentallsoftware.com](#)

ASP.NET MVC | .NET Framework | C# | MSSQL

RENTALL Software is a cloud-based solution designed for managing vehicle rental businesses of all sizes. It offers features like online reservations, GPS tracking, integrated payment processing, mobile apps for check-in/out, and add-on modules for customization.

### Greenlight • [e-vis.com.au/greenlight](#)

ASP.NET MVC | .NET Core | .NET Framework | S3 | Sharepoint | MS SQL

Greenlight, a product of E-VIS, is a digital transformation platform designed for local governments. It offers a suite of modules tailored for different council services, such as planning permits, building management, environmental health, and more.

## EDUCATION

### Master in Computer Science

University of South Wales • 2023 - 2024

### BSc in Software Engineering Hons

University of Westminster • 2014 - 2018
